

# Mirra 2

## Work Is Evolving

---

People are more agile, shifting from individual to collaborative work in an instant. The more they're in motion, the more they need support that moves with them.

## Together in Motion

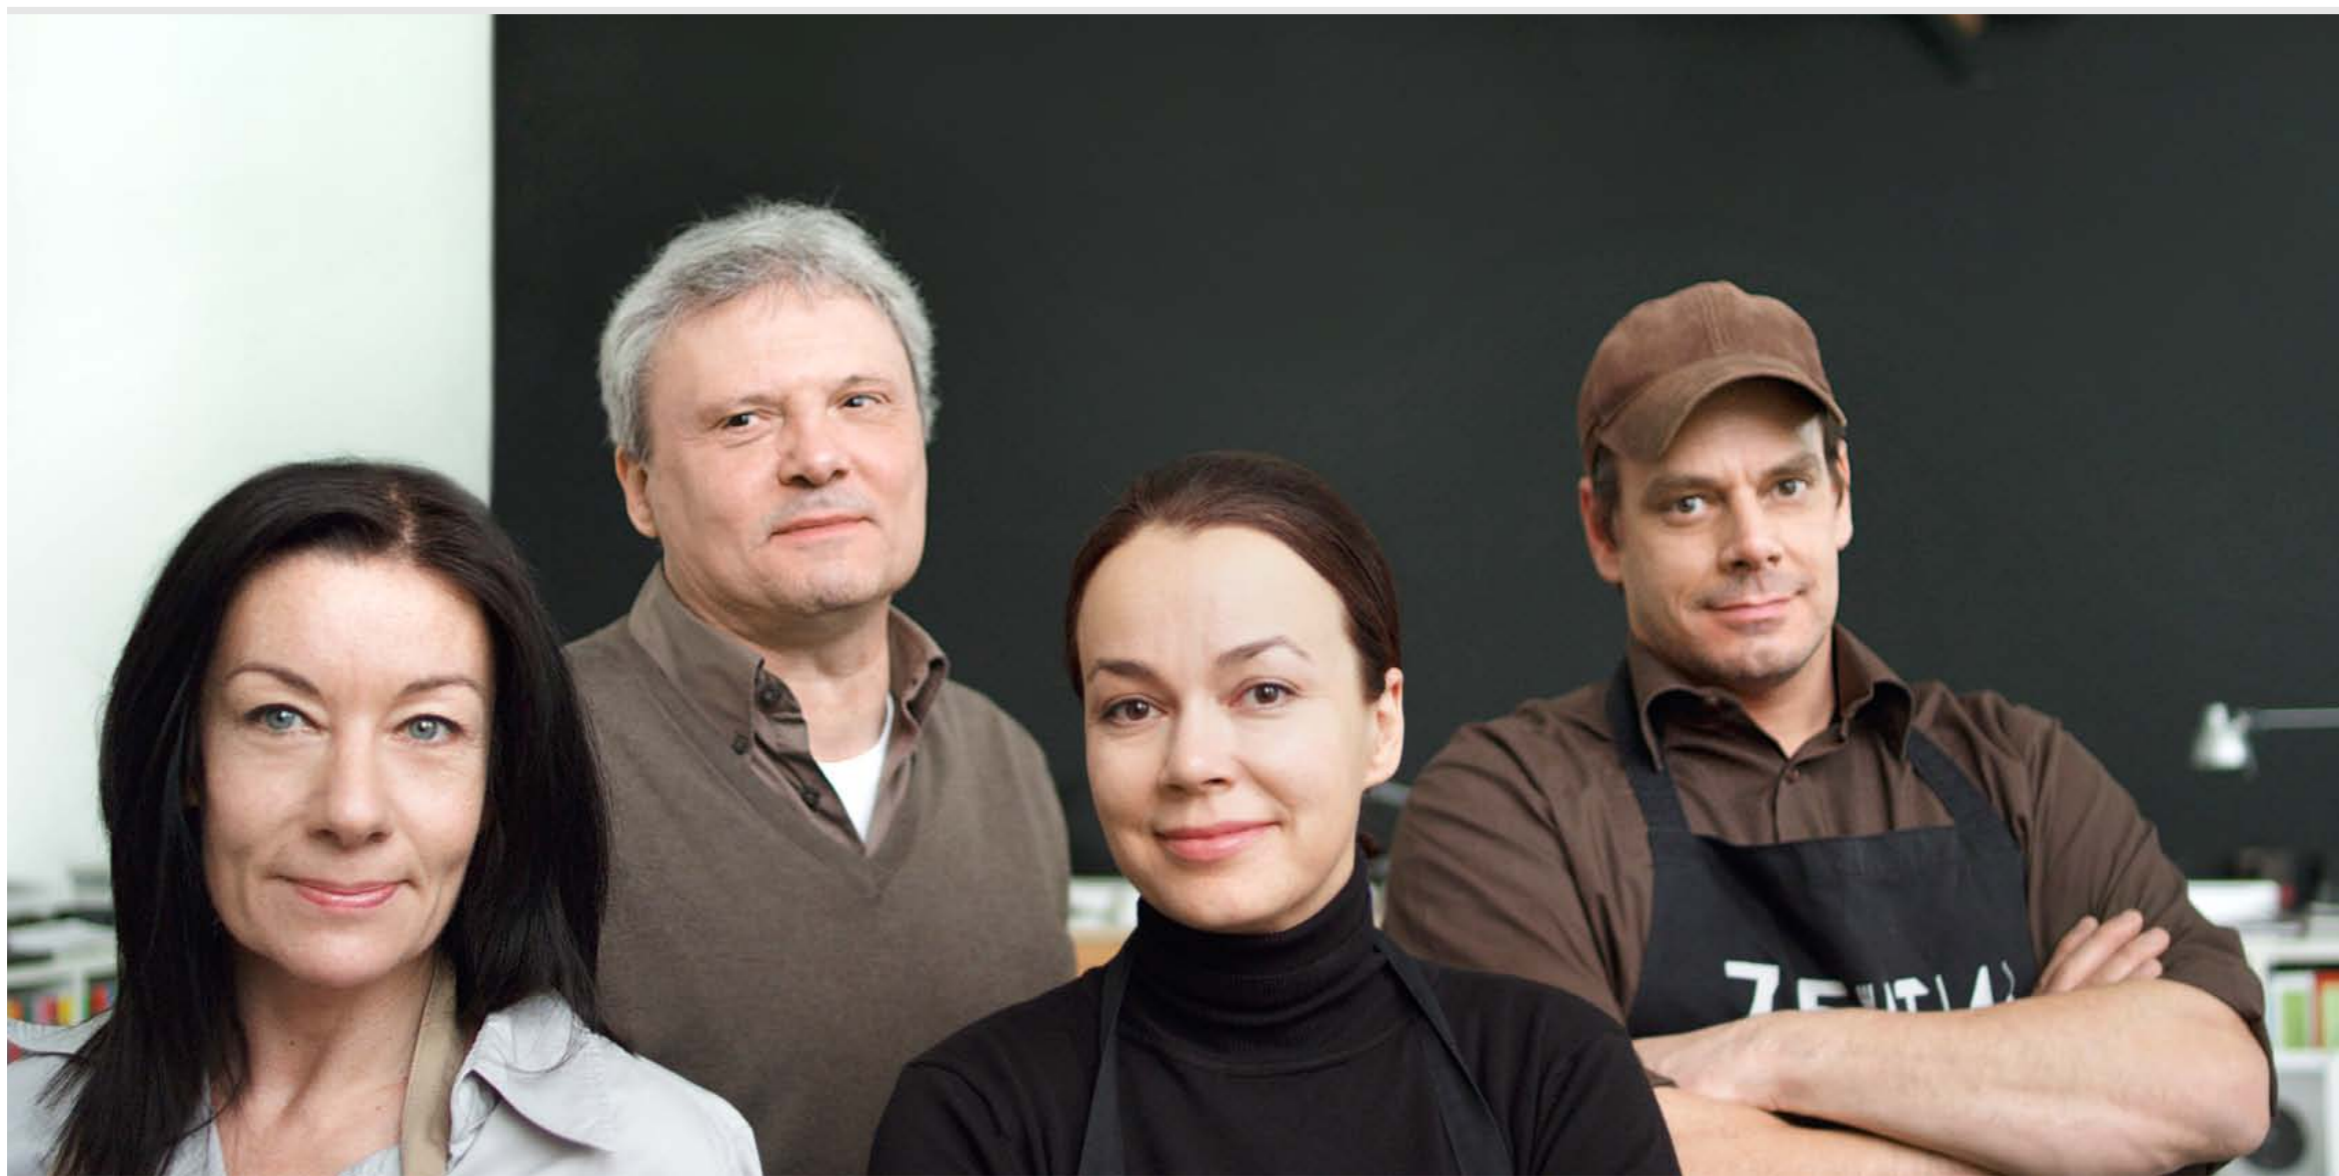

Mirra® 2 moves with you, at one with your body. When you sit, Mirra 2 adapts to you instantly. Shift and it dynamically supports even your slightest movements.

## Designers' Passion

Ten years and over 1.5 million chairs later, the designers of Studio 7.5 worked with us to rethink every part of a successful design to make Mirra 2 leaner, lighter, and so responsive it supports you wherever you go.

# Support in Motion

EXCEPTIONAL RESPONSIVENESS

The Mirra 2 Butterfly Back™ results from inventing a method for merging a fabric layer with polymer veins to create an intelligent structure that supports you as you move.

# Support in Motion

HYBRID PERFORMANCE

The Butterfly Back™ is a hybrid structure shaped for dynamic support that keeps your body in healthy alignment.

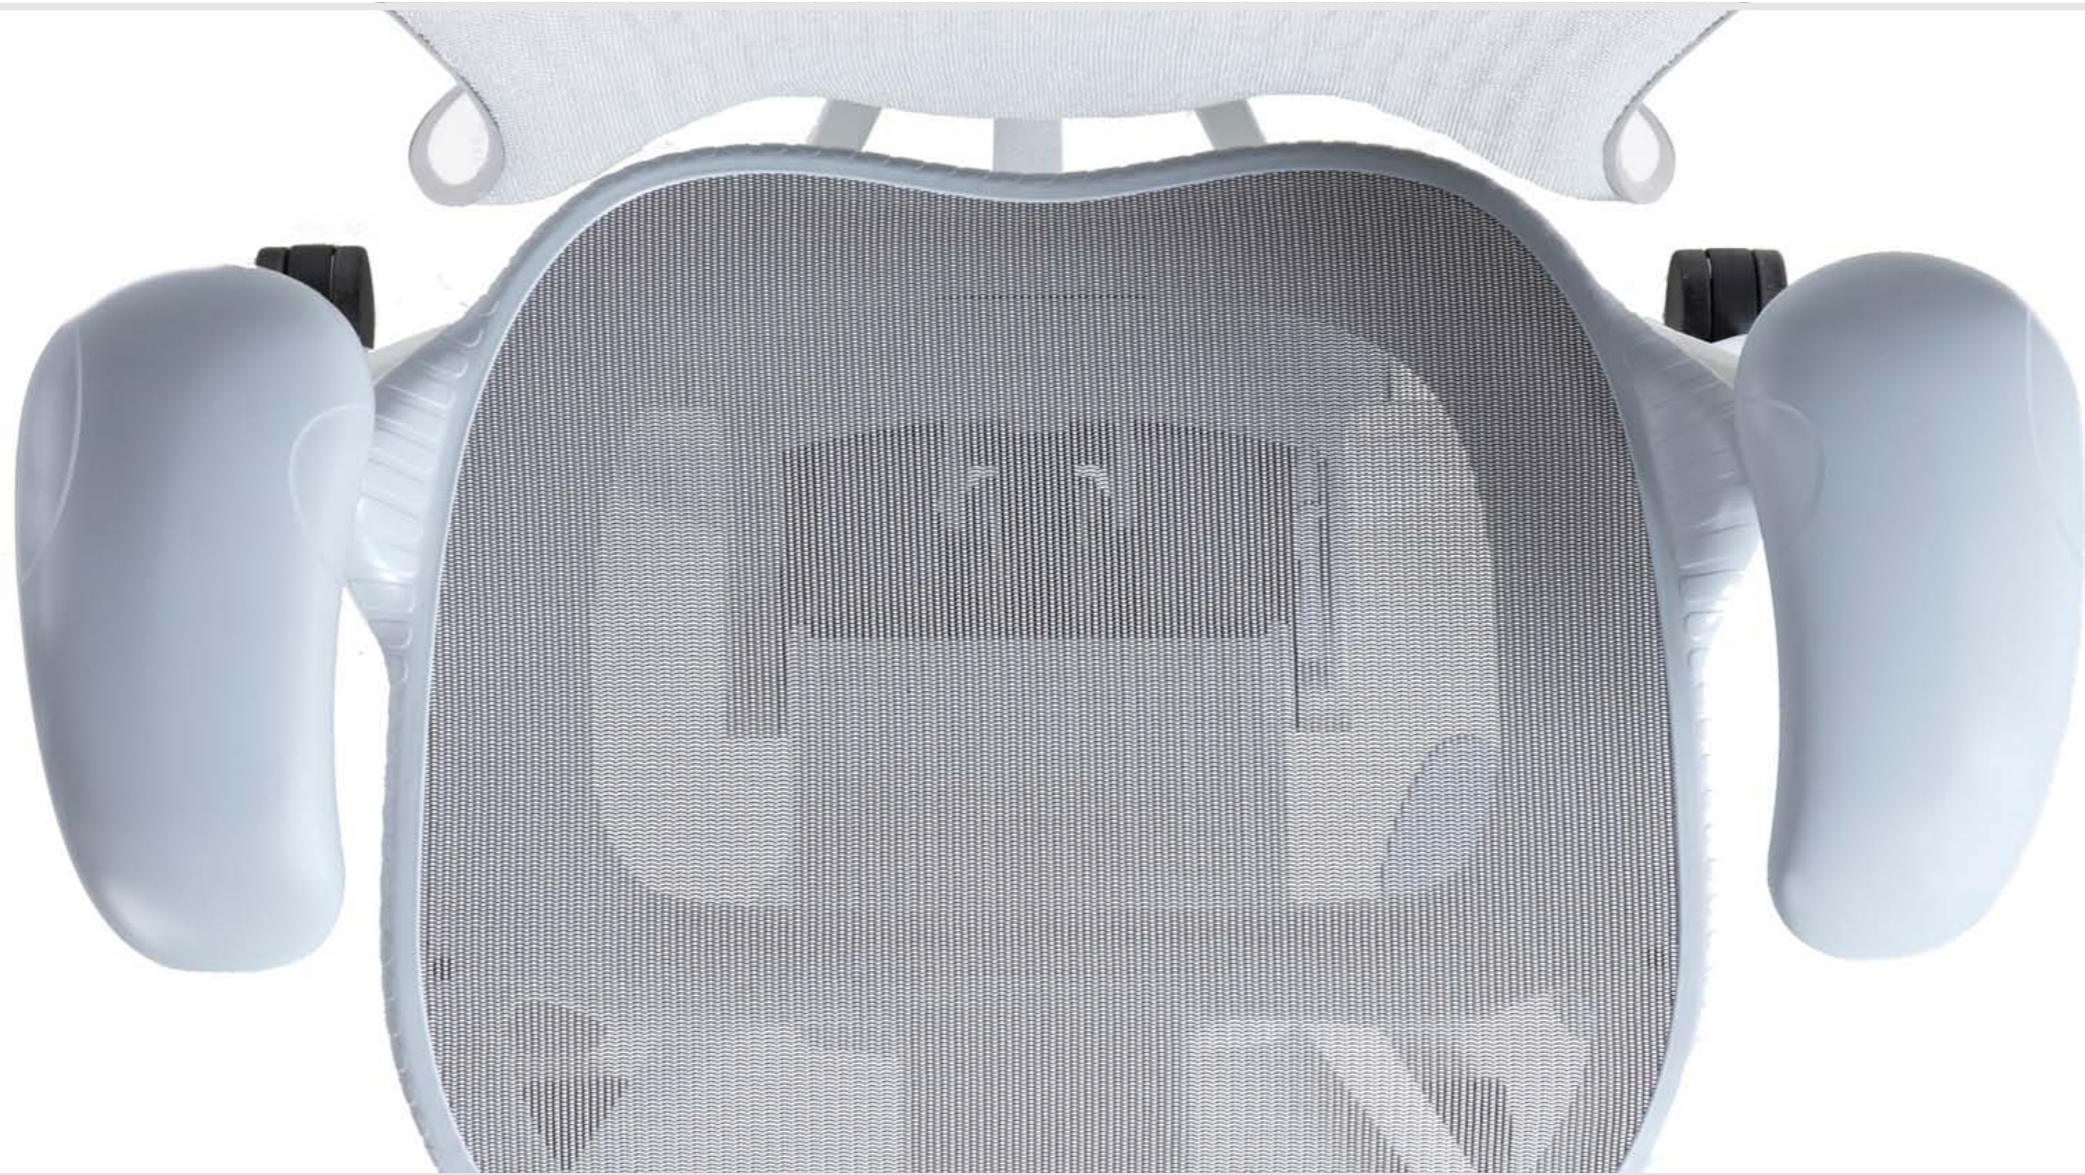

# Support in Motion

BREATHABLE COMFORT

Ingenuity is apparent in a new seat design that increases air flow and combines with a responsive, ventilated back to keep your body cool and supported no matter how active you are.

# Support in Motion

BALANCED FEEL

A reinvented Harmonic™ tilt with a responsive leaf-spring design creates a smooth and balanced feel as you move from one posture to another, whatever your size or stature.

# Beauty in Motion

APPEALING PROFILE

The lean design of Mirra 2 brings a sophisticated profile and visual lightness to any space.

MULTIPLE CHOICES

Added selections for textile and back colors along with new options for base finishes increase your range of choices.

# Responsibility in Motion

ESSENTIAL MOLECULES

The quest to make every molecule count led to a dematerialized design—less material used intelligently for a chair that is more responsive to your body, and more responsible to the earth.

# Responsibility in Motion

LIGHTER FOOTPRINT

At over 22 percent lighter, Mirra 2 has a carbon footprint that is 25 percent smaller, building on its legacy as the first cradle-to-cradle office chair.

# Coming Summer 2013

Our continued study of how people sit takes another step forward when Mirra 2 debuts, because it advances how you sit.
